In this two-day divorce workshop series, our Faculty Members will present our curriculum designed to prepare professionals on how to work with children in divorce families. The curriculum involves four parts:

1. Children's voices in divorce families,
2. How to work with families in custodial battles,
3. Clinical logistics in dealing with divorce cases, and
4. Treatment process in working with children in divorce families.

The purpose of this training is to recruit professionals from multi-disciplinary backgrounds who are interested in becoming affiliated with AAFT to develop a new approach in working with children in divorce families. Priority would be given to participants who can attend both days. Those who had completed the course would be considered for further intermediate and advanced training to be announced at a later time.

(Alternative arrangements may be made for the workshop depending on the COVID-19 situation and infection control measures that are enforced.)
